

AmiBroker Houston Conference and Workshops Definitions and Agenda

What is a workshop? It is a program which is tutorial in nature, devoted to one subject and extending for three hours to two or more days. It usually has a narrow scope and one or two speakers for the entire program.

What is a conference? It is a program devoted to one theme but having many topics and many speakers.

What is a breakout session? It may be part of a conference or workshop, but it is a period during which there are two speakers or presentations going on simultaneously and the attendees choose the one they prefer to hear.
